PROFESSIONAL SUMMARY

iOS and full-stack developer who has shipped 6+ mobile and web products — SwiftUI, Flutter, REST APIs, Firebase, and investor-backed admin dashboards. Apple Developer Academy graduate with a **Top 3 capstone (Sensic)** for accessibility and Core Haptics. Strong in product design, MVVM, user research, and end-to-end delivery from Figma to release-ready builds.

6+ apps shipped

Top 3 · Apple Academy

SwiftUI · Flutter · REST

B.S. Computer Science

EXPERIENCE

CoreTechSolution Jun 2026 — Present
Mobile & Full Stack Developer · Early-stage startup

- Build and ship production mobile apps with Flutter and SwiftUI across multiple startup product lines
- Own UI/UX in Figma and deliver full-stack features — REST APIs, backend integration, auth, and admin workflows
- Move fast from prototype to release-ready builds in an agile, investor-backed environment

Apple Developer Academy Sep 2025 — Jun 2026
Graduate · iOS Developer

- Shipped 5+ team iOS products (accessibility, social, entertainment) using MVVM, CloudKit, Firebase & user research
- **Sensic** — Top 3 capstone: haptic music for deaf & hard-of-hearing users (Core Haptics, SwiftUI)
- **Wessal** — PECS app with custom cards, voice recording & offline storage
- **ORBIT** — Social goals app with Firebase auth, real-time challenges & SwiftUI UI
- **Moviasme** — Movie app with REST API CRUD (reviews, profiles, auth)

Asir Region Municipality Jan 2024 — Mar 2024
Developer Intern · Digital Services

- Developed a citizen-facing chatbot for municipal inquiries and internal workflow automation
- Supported digital services with implementation, QA, and deployment of public-facing tools

LANGUAGES

Arabic — Native
English — Professional working proficiency

EDUCATION

Apple Developer Academy 2025 — 2026
Graduate · iOS Development & Product Design

King Khalid University 2020 — 2025
Bachelor of Science · Computer Science

SELECTED PROJECTS

Sensic · Top 3 · SwiftUI
Top 3 capstone — haptic music for deaf & hard-of-hearing users with Core Haptics.

Learning Journey · SwiftUI · GitHub
Habit tracker with streaks, freeze days & onboarding — Core Data & polished UI.

Admin Platform · Flutter · NDA
Investor-backed dashboard: Figma UI, live map, REST API & backend services.

Stock Market AI · ASP.NET · C#
AI market analysis app with profit/loss outlook & charts.
